How to Be a Real Estate Appraiser -- Full- or Part-Time with RONALD M. GOLD

Real estate appraisal is an exciting, rewarding and lucrative profession that's open to all and requires no special background to break into. Real estate appraisers make from \$20,000 to \$100,000 per year!

Home appraisal is a business that will always be in demand as long as people continue to move (which they always do!). Ronald M. Gold, an accredited senior real estate appraiser, will describe the ins and outs of appraising from the ground up. You'll learn: * The market for real estate appraisers * Differences between residential and commercial appraising * How to become a qualified appraiser * Licensing and certification requirements * How to break into the field, either working for an established company or starting your own business * And much more!

Ronald M. Gold is an accredited senior appraiser and a member and past president, NY chapter, of the American Society of Appraisers. He is a member of the Real Estate Board of New York, the Greater Harlem Real Estate Board and the Employee Relocation Council.
